EXCELLENCE IN BUILT-UP CLADDING SYSTEMS

- Energy efficient cladding systems.
- Range of different cladding profiles available can be laid vertically or horizontally.
- Vertical liner system provides a clean white interior finish.
- R-Values of up to 10 (m².K/W) achievable.
- Liner sheets side and end laps can be sealed to reduce air leakage.
- After the liner sheet has been installed wet trades can start within the building.
- Backed with a single source up to 20-year Guardian™ Warranty.

**GUARANTEED TO
SAVE YOU MONEY!**
